GREENKEEPERPRO

Professional Divot/spot repair tool

The Greenkeeper Pro by Pitchfix is a one of a kind divot and brown spot repair tool. The tool is built around Pitchfix's award winning RepairTec technology and was designed to make your maintenance teams life easier. With just one push down in a ball mark, while retracting, the pins spring mechanism stretch the root and soil structure back in place like the ball mark was never there. Simultaniously the ball marks spot is aerated by the pins allowing for a quicker healing of the affected area.

The Greenkeeper Pro comes as a set with two different heads for dry & firm, as well as for wet & soft conditions. Always have the best repair tool for common circumstances.

COOLERS

PROUDLY MADE

ORCA Coolers are proudly MADE IN THE USA. The ORCA roto-molded process and Integrated insulation means maximum ice/cold retention and freshness of your stowed items for up to 10 days. Which means you can go ahead and play that additional round without checking your ORCA cooler. The lid gasket has a perfect seal and every cooler has an easy-flow drainage spout.

You can now feature your golf course's full-color logo on the lid of most **ORCA** coolers. These are great for golf scrambles, outings or anytime you need to keep things cold. Refer to the swatches below for color options.

CUSTOMIZE

Personalized for your course, **ORCA** drinkware is available in four different options. You can choose from the **ORCA** Chaser 27 oz, or the **ORCA** Hydra in 22 oz, 34 oz or 66 oz sizes. Our double walled, copper clad and vacuum sealed products are made of high quality stainless steel to provide the best

possible cold and heat retention. Our drinkware lids are made of shatter-proof Eastman Tritan™ copolymer to ensure your drinkware is leak free while on the go. Personalize your drinkware with stainless etched, stainless full color, powder coated etched, or powder coated full color.

Stainless Etched

Your golf course logo will stand out on the ORCA drinkware with laser etching. This process will allow your logo to stand the test of time as it is cut into the stainless steel material.

27 oz CHASER

Stainless Full Color

You can show your full-color logo with this printing option. Your golf course will be featured in high definition on any **ORCA** drinkware products.

22 oz HYDRA

Powder Coated Etched

The powder coated **ORCA** drinkware line can be etched with your logo. This is a great feature for a one color logo.

34 oz HYDRA

Powder Coated Full Color

If you prefer a powder coated **ORCA** product line but have a full-color logo, this option is now available. Your golf course colors can all be featured with this option.

66 oz HYDRA

DRINKWARE

Hydration is key for a great adventure. Whether you're working out at the gym, hiking in the woods, or playing 18-holes, the **ORCA** drinkware line is sure to quench your thirst all day long.

ORCA Chaser

- Double walled, vacuum sealed body ensures your drink stays icy cold or piping hot
- · Premium stainless steel

Pocket Pal Golf Ball Retriever

- 20" compact length can be stowed in any golf bag
- Extends to 6'7" for a 10 foot over all reach

Dual Sided Retriever

The dual sided head allows for either scooping or trapping the ball depending on the firmness of the golf ball resting spot. The bright colored head helps the golfer to easily maneuver toward the ball, even in murky or unsettled water.

Trap It Retrievers

Trap-It style retrievers have been an industry standard for decades. The easy to use head style allows the golfer to scoop and secure their golf ball the first time, every time. Made of aluminum, each shaft extension locks into place when fully extended and turned to keep the head stable in the water.

Golden Retriever

The popular Golden Retriever has been a top seller since 1990. This unique head design facilitates easy extraction from the water or other hazard every time. Extends to 12' in length.

Long Shot Impact Recorders

Each label is good for a minimum of six to eight shots or as long as you can still identify the last impact mark ... TIP: THE LAST SHOT WILL BE SLIGHTLY LIGHTER IN COLOR FOR A FEW SECONDS. Higher quantity users can drastically lower their cost per label by considering any of the larger bulk packages. Use for practice, teaching or club-fitting. Used labels remove completely leaving no residue.

Long Shot Hybrid/Putter Roll of 600 **87341**

Contains 27 standard size wood labels, 18 standard size iron labels and 7 putter/low profile labels

GHOST TAPE Protect Your Demo Clubs

Makes every club a demo! Leaves no residue when removed. Protects top, face, and bottom of woods on trial or demo. Virtually invisible. Club face application will not affect ball speed or adversely affect ball spin rate as tested on the Swing Dynamics Launch Monitor. Increase sales with more clubs out on trial. Increased profits by protecting your inventory.

Increase the value of demos.

Tempo Trainers

Mens Tempo Trainer 8oz. **90104**

Hittat Pressure Putt Trainer

- This training aid is designed to simulate the exact conditions of putting into a real hole on the green by it's ground-breaking parabolic curved design
- Each successful putt is returned the same distance it would have gone past the hole if it had missed great feedback for getting the pace just right.

Hat DLIT Putting Mat

Gray **PUTM-18**

Blue PUTM-19

Green PUTM-17

- Constructed with a durable, heavy-rubber backing to allow the mat to lie smooth and flat on any surface, easily roll the mat away and into the compact carry bag for practice on the go.
- The high quality cut-pile surface is designed to accurately replicate a medium-to-fast green, with a stimpmeter reading of 10.
- Use the instructional markings and 5 included drills to help develop your game and improve your confidence when putting under pressure.

Mirror System

- The PuttOUT Mirror helps you work on alignment and positioning while putting. With this pack you can setup all of the best putting drills.
- Set the width of the magnetic putter guides on the mirror to check your alignment and address position.
- PuttOUT mirror comes with a stand-alone 2 inch putting gate allowing you to actively work on your strike path and target by having the putter pass through the guide.
- Mirror measures 9.5 x 7.9 x 0.20 inches with durable rubber casing with spikes on underside to keep in place without tees.

- Improves Swing, Tempo, Strength, and Flexibility
- 43" long
- Strengthens core swing muscles
- · Warm up before each round
- Flexible shaft encourages proper form, weight transfer, and follow through

- Aero-Swing for Golf is a Swing Speed device that provides variable air resistance that decreases swing speed when training, and then ultimately helps increase the true swing speed of a golfer.
- Aero-Swing slips down over the shaft of a golf club and rests above the club head.
- Aero-Swing is the only product that allows a golfer to hit balls while working on their swing speed.
- Aero-Swing is NOT a weight. Although each Aero-Swing weighs 4 oz., the resistance is provided by the design of the patent pending flanges and holes on the device.
- Can be used on any golf club including irons.

Swingyde - **66007**

Swingyde is a lightweight golf training tool designed to create the correct swing positions. Swingyde can be used while hitting balls at practice. Swingyde sets the correct hinge position at the top of your backswing. Swingyde also corrects face alignment throughout your golf swing, which leads to greater distance, better accuracy and most importantly lower scores! Swingyde is suitable for both right and left handed men, women and junior golfers. Swingyde is a very simple yet effective training tool and is constantly used by the best teachers and players on all the main Tours around the world.

X TRAXION

TECH-PORT | ADVANCED PUTTING PERFORMANCE

Designed to accept all SuperStroke "Tech-Port" accessories including the CounterCore weight system to engage the larger muscles for a more stable and repeatable putting stroke. Utilizing such muscles helps to reduce putter face angle rotation caused by wrist manipulation while improving putting stroke path for greater consistency.

SPYNE™ TECHNOLOGY | REPEAT HAND POSITIONING

Advanced Spyne™ Technology is specifically engineered to aid in repeatable hand positioning. Repeatable hand placement leads to greater consistency in squaring the putter face at time of impact during the stroke.

NO TAPER TECHNOLOGY® | EVEN GRIP PRESSURE

Patented No Taper Technology* creates even grip pressure for a more consistent stroke. Parallel design has uniform lower hand profile to minimize grip pressure and maintain putter head path for a more consistent stroke.

TRAXION™ CONTROL | ENHANCED FEEDBACK ZONES

Building on the superior feel and playability of the original SuperStroke putter grip, the new Traxion™ offers an advanced surface texture design for enhanced feedback. The strategically designed Traxion™ zones on the tacky polyurethane outer layer offer an amazing comfortable feel leading to greater overall confidence.

CLAW® PROFILE | MINIMIZE WRIST ACTION

Unique design that incorporates a pistol top hand profile with three flat sides in the bottom hand for increased surface area to facilitate a "claw" style putting grip. The CLAW" helps to create a more vertical locked feeling at address by ailing the upper wrist with the putter while reducing wrist action in the bottom.

Flatso Series

 1.1" diameter grip utilizes a standard weight underlisting

Legacy Series

- 1.2" diameter and lite weight underlisting makes a 2.0 Legacy a popular choice
- The 3.0 Legacy has a 1.3" diameter, lite weight underlisting and is a best seller
- This 1.67" diameter
 5.0 SuperStroke was the original super jumbo putter grip

Pistol GTR

- Featuring a classic pistol shape, preferred by golfers
- Pistol GTR Tour has a traditional standard size putter grip feel
- Slightly smaller than a traditional jumbo pistol, the Pistol GTR 2.0 is a favorite among Tour players worldwide
